The Opportunity of a Life Time

95,000 acres in the "Garden Spot of the World," is now being opened up to the American People.

DR. CHAS. F. SIMMONS'
Atascosa County (Texas) Ranch now on the Market.

Opportunities like this seldom occur.

\$210, payable \$10 per month, without interest, buys two lots for a home or business in town and a farm of from a 10-acre truck farm to a 640-acre farm in balmy South Texas.

President Roosevelt said:

"TEXAS IS THE GARDEN SPOT OF THE WORLD."

Investigation will show that this 95,000 acres comprises one of the finest bodies of Agricultural and Truck Farms in the entire state, situated in about 30 miles south of San Antonio, and about two miles south of the county seat of Atascosa County, and extending into Wilson and a part of Kendall Counties, all within 15 miles of the 60,000-acre Live Oak County Ranch which I farmed last year. The 60,000-acre Ranch was sold, with interest on deferred payments, which gives the poor man, from his savings, a chance to start a Farm and Town lot for his home in town. It will demand and turn over to the bonded Trustees \$250,000 from the proceeds of the sale of this property to the purchasers, as a bonus to the first railroad built through this property on the line which I shall designate.

This property is located on the middle plain between East Texas, where it rains too much, and the arid section of West Texas, where it does not rain enough.

Its close proximity to San Antonio, the largest city in the State, with a claimed population of over 100,000, enhances its value as a market for Agricultural and truck farm products far beyond the value of similar land not so favorably located.

Typography.

Level to slightly rolling. Large, broad, rich valleys, enclosed by elevations suitable for homes; 20 per cent fine farming land, balance pasture land.

Forestry.

Level to slightly rolling. Large, broad, rich valleys, enclosed by elevations suitable for homes; 20 per cent fine farming land, balance pasture land.

Soil.

About 60 per cent dark, sandy loam, balance chocolate or red sandy loam, usually preferred by local farmers, and each with soil averaging from 2 to 4 feet deep, with clay subsoil which holds water.

Climate.

Mild, balmy, healthy, practically free from malaria, few frosts, no snow, no hard freezes. Subtropical sea breeze moderates extremes of heat and cold, producing warm winters and cool summers. Average temperature about 62 degrees.

Rainfall.

From the Governor, in record, it is safe to assume that the rainfall on this property has been fully 35 inches per year, which is more than some of the old States have had, and is plentiful for ordinary crops properly cultivated, and for Green Growing.

Improvements and Water.

This property is fenced and cross-fenced in many large and small pastures, with four barbed-wires, with posts about 12 feet apart, also a number of fine shallow wells.

Also, a number of fine flowing Artesian Wells, whose crystal streams flow for miles and miles down those creeks, whose broad rich valleys, irrigated from these continuously flowing streams, make it the ideal place for the Marketing Gardener who desires to raise from two to three crops of marketable produce on the same ground every year.

Farming and Truck Farming.

Seasons never end.

This land is adapted to profitable culture of Beans, Cabbage, Celery, Cucumbers, Lettuce, Tomatoes, Beets, Carrots, Onions, Radish, Squash, Strawberries, Cauliflower, Okra, Oyster Plant, Peas, Raspberries, Turnips, Apricots, Cantaloupes, Grapes, Irish Potatoes, Olives, Sweet Potatoes, Bananas, Dates, English Walnuts, Figs, Melons, Peanuts, Barley, Blackberries, Broom Corn, Lemons, Plums, Tobacco, Alfalfa, Rye, Oranges, Peaches, Peas, Corn, Cotton, Oats, Wheat Apples, Pears.

Page 63 of the book entitled "Beautiful San Antonio," officially issued by the Business Men's Club of San Antonio, dated May, 1906, says:

"It is readily conceded by all those who know anything about Texas that the most prolific agricultural section is that which recognizes San Antonio as its logical center, particularly that portion directly south of San Antonio, with the Gulf of Mexico bordering on the southeast and the Rio Grande bordering on the south and west.

Within the last four or five years,

in the territory named, special attention has been given to growing vegetables, they maturing at a time when they secure the maximum price on Northern markets, which markets they virtually invade without a competitor. The profit in growing vegetables in this territory will be seen by an examination of the following figures, secured from reliable sources, showing

Net Earnings Per Acre.

"Watermelons from \$75 to \$200.

"Cantaloupes from \$40.00 to \$75.00.

"Cabbage from \$125.00 to \$225.00.

"Cauliflower from \$75.00 to \$200.00.

"Beans and Peas from \$100.00 to \$125.00.

"Tomatoes from \$125.00 to \$400.00.

"C. F. SIMMONS, 215 Alamo Plaza, San Antonio, Texas.

\$1,000 Reward will be paid to any one proving that

any statement in this advertisement is not true.

C. F. SIMMONS, 215 Alamo Plaza, San Antonio, Texas.

Republican Primary Election

At a meeting of the Republican Central Committee of Atascosa County, held in the city of Anadarko, Okla., on Thursday, April 20th, 1905, it was ordered by said committee that a primary election be held in said county on Saturday, April 22nd, 1905, for nominating the following county and township officers to be voted on at the election to be held on June 6, 1905.

2. Representatives, Sheriff, Treasurer, County Clerk, County Attorney, County Judge, Clerk of District Court, Superintendent of Schools, surveyor, one county treasurer from each of the following districts and a county weigher, also the following township officers: One Trustee, Clerk, Justice of the Peace and Constable of each of the following districts and a county weigher.

Anadarko Town—School trustee, Inspector, S. S. Anderson, Clerk, Fred Clegg, Henry Smith.

Montgomery Town—School trustee, Inspector, A. L. Chapman
